Projects

E-commerce

- Developed a **responsive** and user-friendly eCommerce web app using **React** and **Material**-**UI**, seamless-ly integrating modern design principles to enhance the overall user experience.
- Implemented **robust** product catalog feature, including **dynamic filtering** and **sorting** options, enabling customers to find and purchase products with ease.
- Utilized **state management** techniques with **Redux**, ensuring smooth and efficient data flow, resulting in improved app performance and faster load times.

Travel Advisor

- Crafted an intuitive and visually appealing travel advisor using **React** and **Material-UI**, empowering users to plan their trips seamlessly and access relevant travel information at their fingertips.
- Integrated powerful **APIs** to fetch real-time data on flights, hotels and tourist attractions, enabling users to make informed decisions and create personalized travel itineraries.

Technical Skills

C++, HTML, CSS, JavaScript, React, Material-UI, Familiar with various Data Structures, OOP, DBMS, OS.
